

Singapore Armed Forces Day 1 July 2011

The Men and Women of NATO Training Mission - Afghanistan honor our teammates from Singapore on the occasion of your Armed Forces Day.

On this day when your country troops the nation's colors in your honor, we thank you for your contributions to our mission here in Afghanistan.

Along with soldiers from several other countries, you have made the Artillery Branch School a great example of how the international community is training our Afghan partners to build critical enabling forces. You are making a significant difference everyday to help NTM-A build not only a larger but a more professional Army.

Happy Armed Forces Day.

James B. Mallory III
MG, USA

Acting Commander, NATO Training Mission - Afghanistan Camp Eggers, Kabul, Afghanistan
